

Geriatric Engineering Technology Minor

Code	Title	Credits
The following four courses are required:		
ECET 201	Circuit Analysis DC and AC	3
BMET 231	Medical Networks, Data Security, and Privacy	3
BMET 360	Introduction to Universal Design for Assistive Technologies	3
BMET 362	Integration and Realization of Assistive Technologies	3
The remaining 1 course from the following:		
MIT 326	Electronic Medical Record Design	3
SDET 325	Medical Informatics Technology	3

Note: Students majoring in Medical Informatics Technology are not eligible for the Geriatric Engineering Technology Minor
